<b>TECHNICAL ABILITY – ELECTRICAL ENGINEERING .....</b>	<b>1-172</b>
1. Basic Concepts and Circuit Law .....	1-16
<b>Key .....</b>	<b>16</b>
2. Magnetic Circuit .....	17-24
<b>Key .....</b>	<b>24</b>
3. A.C. Fundamentals .....	25-36
<b>Key .....</b>	<b>36</b>
4. Measuring Instruments .....	37-47
<b>Key .....</b>	<b>47</b>
5. Electrical Machines .....	48-96
<b>Additional MCQs</b>	
• D.C. Generators .....	77
• D.C. Motors .....	80
• Transformers .....	83
• Alternators .....	86
• Induction Motors .....	90
• Synchronous Motors .....	92
<b>Key .....</b>	<b>94-96</b>
6. Generation of Electrical Energy .....	97-107
<b>Additional MCQs</b>	
• Generation of Electrical Power .....	101
• Power Factor .....	103
• Economics of Power Generation .....	104
<b>Key .....</b>	<b>106-107</b>
7. Transmission and Distribution .....	108-113
<b>Key .....</b>	<b>113</b>
8. Utilization of Electrical Energy .....	114-120
<b>Additional MCQs</b>	
• Illumination .....	119
<b>Key .....</b>	<b>120</b>
9. Electric Heating and Welding .....	121-131
<b>Key .....</b>	<b>131</b>
10. Switch Gears and Protection .....	132-146
<b>Additional MCQs</b>	
• Circuit Breaker .....	141
<b>Key .....</b>	<b>146</b>
11. Estimation and Costing .....	147-148
<b>Key .....</b>	<b>148</b>
12. Electric Drives and Motors .....	149-152
<b>Key .....</b>	<b>152</b>
13. Basic Electronics .....	153-172
<b>Key .....</b>	<b>171</b>
