

# Preface

---

As we all know that Computer Science is broadly divided into two branches namely Computer Hardware and Computer Software. This book is completely dedicated to Computer Hardware. It contains intense knowledge about Processor (upto i7), Motherboard, Power Supply, RAM, Hard Disk, CD/DVD, Computer Display system, Printer, Sound Card, etc.

Beside this, from Computer Assembling and the hardware used in computer assembling to the problems related to the Operating System with their remedies, all important details have been presented in this book. With its help you will be able to know all those aspects of hardware which, one usually gets only after long experience.

This book has been conceived specially for those students who are learning Computer Hardware and Networking Course in various institutes and are finding difficulties in following big volumes of books available in the market written by foreign writers. In this new revised edition, a chapter on “Hardware Troubleshooting” has been added besides section on “MCQs” which is being asked in almost all computer science exams at various levels. It is trusted that this book will prove to be of immense use to all the beginners learning Computer Hardware and Networking.

# Contents

---

1. Computer Introduction .....	1-4
2. Microprocessor (CPU) .....	5-12
3. Computer Motherboards .....	13-30
4. SMPS: Switch Mode Power Supply .....	31-40
5. Computer BIOS (Basic Input Output System) .....	41-44
6. RAM (Random Access Memory) .....	45-54
7. Hard Disk Drive .....	55-68
8. CD/DVD: External Storage .....	69-78
9. Computer Monitor and Display Cards .....	79-88
10. Computer Printers .....	89-100
11. Computer Sound Cards .....	101-108
12. The Operating System .....	109-112
13. Computer Assembling .....	113-136
14. Windows XP Installation .....	137-144
15. Windows 7 Installation .....	145-148
16. Microsoft Windows 8 Installation .....	149-164
17. Computer Networking .....	165-186
18. Hardware Troubleshooting .....	187-204
19. Multiple Choice Question-Answers .....	205-218
<i>Appendix: Glossary</i> .....	<i>219-220</i>
