

Preface

Microsoft Office 2013 is the latest and powerful version of most popular application software from Microsoft Corporation. Like earlier up-dated versions of MS Office, this new version has been launched not only with several new additions and deletions, its Interface has been changed completely. Beside this, one more important change has been made : all the commands have been classified according to their usage and have been placed under different blocks. This group of blocks has been named Ribbon. If you focus to learn the use of this Ribbon, you can easily do all types of word processing in MS Word 2013.

In this book, process of using Word 2013 is presented in such a way that you can not only understand its new Interface and Ribbon, but can also learn to create your own customized documents and affect changes according to your requirements. Document Formatting, PDF, XPS and XML creation and process of Printing your document from MS Word 2013 have been described in this book in absolutely simple manner. It is trusted that users can learn to work in this main element MS Word 2013 with the help of this book.

Contents

1. Introduction of MS Word 2013	1-26
New features of Word 2013	3
Working in the Word 2013 user interface	4
Identifying program window elements	5
Working with the ribbon	8
Opening, navigating, and closing documents	17
Viewing documents in different ways	21
Key points	26
2. Working with Text	27-49
Working with Text	27
Modifying text	31
Inserting one document into another	31
Keyboard shortcuts	33
Finding and replacing text	37
Fine-tuning text	42
Viewing document statistics	46
Correcting spelling and grammatical errors	46
Key points	49
3. Text Appearance	50-71
Text Appearance	50
Changing a document's theme	55
Manually changing the look of characters	57
Creating and modifying lists	68
Key points	71
4. Columns and Tables	72-85
Columns and Tables	72
Creating tabbed lists	75
Presenting information in tables	76

Formatting tables	84
Key points	85
5. Using Graphics	86-98
Using Graphics	86
Inserting screen clippings	90
Drawing and modifying shapes	91
Adding WordArt text	94
Formatting the first letter of a paragraph as a drop cap	97
Inserting symbols	97
Key points	98
6. Document Printing	99-113
Document Printing	99
Controlling what appears on each page	103
Preparing documents for electronic distribution	106
Digitally signing documents	108
Printing and sending documents	109
Key points	113
7. Add Visual Elements	114-129
Add Visual Elements	114
Adding watermarks	118
Exercise	118
Inserting preformatted document parts	120
Exercise	122
Drawing text boxes	125
Building equations	126
Setting mathematical AutoCorrect options	129
Key points	129
8. Organize and Arrange Content	130-141
Organize and	130
Arrange Content	130
Arranging objects on the page	134
Using tables to control page layout	139
Exercise	140
Key points	141
9. Create PDF, XPS and XML Document	142-155
Create PDF, XPS and XML	142
Saving Word documents in other formats	143
Editing a PDF file in Word	144
Exercise	145
Designing accessible documents	147
Creating and modifying web documents	149
Exercise	149

Creating and publishing blog posts	154
Key points	155
10. Linking Information	156-170
Linking Information	156
Linking to external resources	157
Exercise	157
Embedding linked objects	160
Exercise	160
Inserting and linking to bookmarks	163
Exercise	164
Displaying document information in fields	167
Exercise	169
Key points	170
11. Reference Content	171-186
Reference Content	171
Exercise	172
Creating and modifying tables of contents	173
Exercise	175
Tables of authorities	177
Tables of figures	178
Creating and modifying indexes	179
Exercise	181
Adding sources and compiling bibliographies	183
Exercise	184
Key points	186
12. Using Mail Merge	187-202
Preparing data sources	188
Exercise	189
Using an Outlook contacts list as a data source	192
Preparing main documents	192
Exercise	193
Merging main documents and data sources	195
Exercise	195
Printing envelopes	196
Sending personalized email messages to multiple recipients	197
Exercise	197
Creating and printing labels	199
Exercise	200
Adding and reviewing comments	201
Key points	202
Appendix-a: Keyboard Shortcuts	208-216
Work with documents and webpages	204
Insert special characters	205
Apply character formats	206
Appendix-b: Glossary	208-216
